

New MAPP® gas & PowerCase

PowerCase

The new ergonomic and stackable case concept

The Powerjet Kit now comes in a sturdy yet lightweight case with ergonomic handles and design.

This case also comes with the new Sievert Stack&Lock-system, which allows for multiple cases to be placed on top of each other and locked together.

This feature allows for easier and safer transport and saves space for our customers.

Stack the cases on top of each other

Lock in the back-end of the cases

Push the case down until you hear a clicking sound

The cases are now stacked and locked for easy transport

PowerCase MAPP® EU

Powerjet powered by MAPP® gas

MAPP®

New high pressure cylinder

The high-efficient Sievert MAPP® gas is making a comeback, this time with a patented technology that offers users the EU 7/16" connection suitable for hand held torches. The MAPP gas provides maximum heat and benefits during winter when outside temperature is below zero degrees.

MAPP® is a registered trademark of Sievert.
